DETAILED ACTION

Elections/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 and 12-13, drawn to a method for combining codewords with BIS words to form an ECC block which are written to a medium, classified in class 714, subclass 752.
- II. Claims 2-6, drawn to a method for calculating a predetermined number of error correction bytes, generating BIS lines, writing code word bytes, placing the codewords in a matrix, performing cyclic row shifting to obtain a second matrix and placing the second matrix at a third matrix location, classified in class 710, subclass 756.
- III. Claims 9-11, drawn to a method for reading bytes and reconstructing codewords from bytes, classified as 714, subclass 07.

Invention Group I, a method for combining code words with BIS words to form an ECC block which are written to a medium, Invention Group II, a method for calculating a predetermined number of error correction bytes, generating BIS lines, writing code word bytes, placing the code words in a matrix, performing cyclic row shifting to obtain a second matrix and placing the second matrix at a third matrix location and Invention Group III, a method for reading bytes and reconstructing code words from bytes. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP Section 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the claims of Group I do not require the limitations of placing a matrix in another location or reconstructing. The subcombination has separate utility such as parity checking and duplication.

Because the inventions are distinct for the reasons given above and the search required for Group I is not required for any other group, restriction for examination purposes as indicated is proper.
